

TALL TREES

Would you allow me space in your columns to say "Thank you" on behalf of the handicapped residents of Tall Trees to those splendid Friends for all their hard work at the Summer Fete on the 9th June, and an equal grateful thanks to all other supporters; the Wychwood Division of the St. John's Ambulance Brigade and all other members of the public who came from far and wide who came to give both practical and financial help.

In no way did the drizzly weather dampen their spirits which was clear from their obvious pleasure in the superb music of the Kidlington Silver Band and the fantastic display by The Hawks - the RAF Sports Parachute Team - who literally danced in the air and landed so incredibly easily in the small paddock.

The final count of money raised at the time of going to press is not completed, but would appear to be over £1,500.

If you could see the excited happy faces of the handicapped residents of Tall Trees who now know they are going on a good holiday as a result of your efforts, you would be well satisfied and may rest assured that every penny will be well spent

Bill Mumford.
