

AVEN CONCRETE PRODUCTS LTD

It may be of some interest to know that Aven Concrete Products are now trading at Unit 10, Alfred Groves Industrial Estate, Milton-under-Wychwood. The site was previously occupied by Thames Precast Ltd. who unfortunately went into Receivership earlier in the year. The new owner is Norfolk business man, Nigel Wiggins. He, like myself, has been in precast concrete most of his working life and this operation at Milton compliments his other business interests.

We are aware there is a great deal of support in the village for operations to continue on this established industrial area which has played such an important role in the development of the village over the past 332 years. We are also very aware of its close proximity to the village and every possible effort will be made to minimize our impact on the environment. Employment is relatively low at present with only seven people. As the business expands we will require more and I would be pleased to hear from anyone interested, especially those with special skills. We have already spent a lot of money in the local community with setting up and improvement costs and this will continue.

If you have a particular query or even a concern, why not write to me or telephone on 0993 830607.

Yours sincerely,

David Knight, Managing Director.
