- \* Help with Medical Negligence claims
- \* Citizen Advocacy

Western Corner began as a parent initiative and aims to work closely with parents and reflects their needs in its provision of services.

We are looking to increase our number of carers who offer short term breaks (one weekend a month, overnight stays, daycare) to children with learning disabilities. No previous experience is necessary as training and continual support will be given and all expenses paid.

Western Corner works closely with and receives financial help from Oxfordshire County Council Social Services Department.
