

## AND WE DID!

### Response From "CAN YOU HELP ?" in the last issue!

A copy of the letter below was sent to the Editor a few weeks ago.

Dear Mr and Mrs Jackson,

I would like to thank you so much for passing on the "Can you help?" page from the last issue of "The Wychwood". I had a call from Sue Fraser yesterday evening and we are arranging to meet in the next few weeks. I had been over to Ascott a couple of times making a nuisance of myself at the local shop, the one attached to the farm on the corner and stopping locals in the street in my efforts to trace Sue and in the end, on the recommendation of the Post Office, in Shipton I think, called on Rosemary Salter.

I felt sure that there would be someone out there who would have remembered them if only I could find the right person, but deep down I knew it was a long shot. If all had failed I was going to write to Ed Stuart's programme on Radio 2 but knew that there was a very long waiting list for his "Where are you now" slot.

Many thanks! Kindest Regards,

Peter Burrows.

It would seem that Mr. and Mrs. Jackson used to run the Swan in Ascott and thought they recognised the person described in the article. Having the address of "Sue", they cut out and sent the article to her in Solihull. (It transpired that she had lived in Ascott for nine years until 1977).

Sue telephoned the Editor and the rest is history. We were delighted to have been of help.
