

INFLUENZA VACCINATIONS

This year the Wychwood Surgery influenza and pneumococcal vaccination programme will take place by appointment in designated clinics. These will be held at the Surgery from Tuesday 7th October onwards.

For an appointment, please telephone the Surgery, preferably outside Surgery hours, from mid September.

For those people who usually have their vaccine administered by the District Nurse at home, these arrangements will remain unchanged.

Wednesday 17 December

Chipping Norton Hospital

DILI (pronounced Dilly) stands for Dialability Independent Living Information. She is a mobile information unit which serves the county carrying information for disabled people, their carers, families and friends.

We cover all aspects of disability - from the elderly with arthritis to families with disabled children. So if you want to know anything - where to get a kettle tipper, is there a local support group, can you claim Attendance Allowance - do drop by and we shall do our best to help you.
