

MILTON-UNDER-WYCHWOOD AND DISTRICT TWINNING ASSOCIATION

The Association was formed some four years ago and the intention was to form a twinning link with a small French village, after many trials and tribulations we established contact with Venansault, in the Vendée region of France and since then have gone from strength to strength.

The present position is that we are approaching the time to formalise our links with Venansault and when this takes place we hope to generate even more support and interest from our area. Up until now our contacts with Venansault have been by visit, phone, fax and letter! Initially four people came from France but we now have regular organised visits... usually involving about 24 visitors. We are going there next in October for a long weekend. The contacts that are established are now very strong and a number of individual families here are in regular contact with families there. The village primary school is taking a prominent part and the links between the Venansault school and ours is heartwarming. We are always pleased to hear from new members and the Chair of the Association, MARTIN HALLAM, is always ready to answer any queries or provide information, he can be contacted on 01993 - 830015

WYCHWOODS DAY CENTRE

From October 1st members of the Day Centre will be having their lunch cooked on the premises rather than having it delivered. If anyone has spare fruit (apples, pears etc.) please could they contact the Day Centre on a Thursday.
