

Courage and Bravery.

Emma Cuthbertson, who lives in Shipton, was having a quiet time in Oxford one evening and saw a man floating face down in Castle Mill Stream, being kept afloat by his jacket. She jumped over the barrier and into the water fully clothed and dragged him to safety, keeping him in the water until the paramedics arrived, to protect his spine.

Her friend Ricky King from Brize Norton helped haul him out. The man was unconscious, having hit his head as he fell into the water and was taken to the JR.

It took clear thinking and courage to act so promptly, and she probably saved his life. Well done Emma.

SUMMER HOLIDAY ACTIVITIES

This year sees the start of something new in West Oxfordshire's summer holiday activities programme.

A Mobile Sports Roadshow will be travelling to various locations throughout the district, giving children the chance to experience a mixture of sporting activities and games close to their homes.

The traditional activities of Football, Tennis and Cricket will also take place and there will be a selection of special days such as Archery and Fencing.

The holiday programme is for children aged from 7 to 15 years old. It is being run in partnership between West Oxfordshire District Council and Wycombe Leisure.

For further information or booking details on this year's programme please contact:

Chris Johnson, Sports Development Officer on 01993 770377.
