

Village Business Pampered Bliss

Heather Edwards has been running her mobile beauty business in the Wychwoods for a couple of years. She recently set up a salon in Milton-under-Wychwood, behind the offices at Groves

Builders. Heather has turned this small unit into a real haven of peace with her tasteful decorations and restful colour schemes. Never having spent too much time on beauty treatments and skincare, relying on having inherited my grandmother's good skin to get me by, I was intrigued and delighted when Heather invited me to her new salon for a 'pamper session'.

Nailed to Perfection

Heather started by offering me herbal tea or flavoured water, before commencing my manicure, using products from her O.P.I. range to cleanse and soften before skilfully applying nail polish.

Moving from the nail bar to the pedicure area I sat back and enjoyed a relaxing hour while Heather worked on my feet. I am funny about having my feet touched, afraid that I might start giggling, but I need not have worried; this was just so relaxing. By the time she had finished my feet were soft and my nails beautifully painted a daring red. I was proud to don my sandals and expose my feet to the world!

But the best was yet to come as we moved upstairs to the beauty room. Heather has really excelled herself here;

the whole atmosphere is designed to relax. Lying back on the couch was a delight and I am sure that I drifted off a couple of times.

Heather believes quite simply that the best beauty routine can be summed up in three

words; cleanse, tone and moisturise and this she proceeded to do for me. With my eyes closed I felt a series of lovely smelling applications on my face, all of which were explained as they were applied. My skin was positively glowing when the treatment was finished.

But there was still more to come as Heather started an aromatherapy massage to my face, neck and shoulders. When she applied the hot steam towels I was tingling to my nerve ends, but oh so relaxed! And then a tiny bell rang to tell me the treatment was over and I had to pull myself back to the real world!
