

The Past Is Another Place

A361

Thanks to John Gittings for sending us this old 40s postcard of a lone cyclist on the Burford Road coming out of Shipton. He found the picture amongst some of his father's old letters. Would any of our readers dare cycle up there now? Perhaps we should have a cycle lane so that they can. The A361 is now blighted by very heavy traffic, and this continues to alarm many residents. Please see Page 55 if you are interested in taking part in a traffic survey, as the first step towards reducing the volume, speed and adverse environmental effects of traffic on our lovely villages.

Milton Cricket Team Circa 1950

Can our readers identify any of the individuals shown in this photograph?
