

The Wychwood Players *Time of My Life*

Rehearsals are underway for the next **Wychwood Players** evening of entertainment in the form of Alan Ayckbourn's

Time of My Life - a play relating the story of a family and the consequences of their actions. Brilliantly written by A. A. it is interwoven and divided up amongst three couples. Throughout the play the older couple continue to act out the evening of Laura's birthday, while the young couple give us an insight into the two months

leading up to the birthday party, and the middle couple lead us through the events and consequences of that evening and the following two years.

First night is **Thursday 19th May**, with performances on **Friday** and **Saturday Night** starting at 7:30pm. Doors will open from 6:45pm and tickets will go on sale from the 1st May, tel: 07776 029871. Or just turn up on the night! See you there.

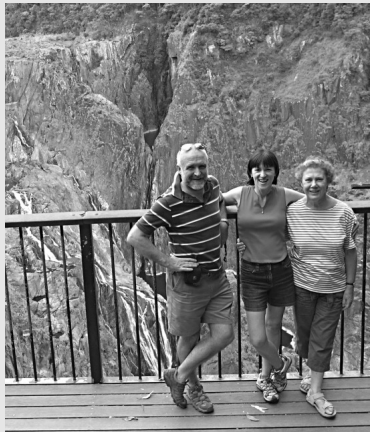

Sian O'Neill

Guess Who?

I wonder how many readers will recognise the people in this photograph?

If you were in the area in the mid-nineties you would almost certainly know the man and quite possibly the younger of the two women.

Donal and Julia Watters were doctors at the Wychwood Surgery for three or four years. They lived in Ascott and had three small children, Rosie, Donal and Christopher.

Last autumn we visited them at their home near Cairns, Australia and the photograph was taken then. The children are now grown-up. Rosie is a medical student and the boys, now in their mid-teens, are still at home. Donal works locally and is also a Flying

Doctor. He is as energetic as ever and really hasn't changed at all.

Julia also works, although at a different surgery and looks younger than ever - it must be the climate! They have a lovely home on the edge of the forest area. They sail, cycle, hike, swim and are extremely energetic. We did not get to meet

Rosie but the boys are both charmers and have inherited their parents' energy. All in all we had a wonderful, if busy, few days enjoying their hospitality and the fascinating area in which they live.
