

## Anthony George Treweeke 1950 - 2011

Anthony Treweeke was just four weeks old when his family moved to Shipton. He started his education at St. Mary's School, moving on to Burford School when he was 11.

He had hoped to join the RAF, but because he was a 'September child' he missed the intake date for his year. He decided to go into the Merchant Navy, to fulfil his dream of travelling. After studying for three years at Poplar Technical College he took up his first posting as ship's engineer.

Joining the Bowring Steamship Company enabled him to sail around the world many times, seeing most countries except New Zealand.

After thirty years at sea he felt ready to retire and was very happy to settle back in Shipton. He enjoyed pottering around in his garden and fields and never wanted to leave home again.

Anthony died suddenly after a short illness and is sadly missed by his mother Dorothy.
