

Dennis Swann 1912 - 2012

Dennis was one of the founder members of The Wychwood Magazine. He was responsible for the layout of all the advertisements in the days of copy and paste, which was an enormous job each year. He and his wife Winn were always ready to host the most enjoyable annual parties for distributors. As a stalwart member of the committee for many years his contributions were always helpful. Ealing Grammar School was obviously a very good vintage because on our small

committee both Dennis and our treasurer had attended there.

Dennis went on to study electrical engineering and became a Chartered Patent Attorney, in fact he was responsible for patenting the microwave.

Dennis loved dogs and one of my fondest memories is when he came to the house, the dogs would be in the back of the car, smiling and alert!

Our condolences go to Winifred.

Rosemary Salter

The Lady Reade Educational Foundation Charity

The present charity has been in existence since Dame Harriet Reade of Shipton Court started it before her death in 1811. Its purpose is to help local children fund further education. Anyone who has completed secondary education and lives in the Parishes of Milton, Shipton, Leafield and Ramsden is eligible to apply for assistance to buy books or further educational aids. Preference will be given to those applicants who are in their first or second year of further education.

The original Trust Fund is invested with the Charities Official Investment Fund and produces an annual income which is given out every year. Contributions to the charity are made by the Parish Councils

and the Parochial Church Councils of the four parishes and from some commercial organisations and generous individuals living in the area who support this worthy cause. Further donations, are always gratefully received.

Application is invited at any time by letter or e-mail **before 15th January 2013**, for the meeting in early February in which the grants to eligible students are awarded.
